Summary:

Seeking a challenging position as a Front end Developer where I can utilize my skills in front-end web development to contribute to the growth and success of the organization while continuously enhancing my knowledge and expertise in the field. I am eager to collaborate with cross-functional teams, communicate effectively, and ensure smooth deployment of applications.

SKILLS:

-
- Frameworks: Bootstrap Framework.
 - Database: MySQL.
 - Front-end Technologies : HTML5,CSS3,JavaScript.
 - Design Tool: Basic understanding of Figma.
 - Version Control: Git.

PROJECTS:

Web Application For Digital Seva Kendra | HTML5 | CSS3 | Bootstrap

- Incorporates CSC services and government schemas to streamline application processes.
- Offers additional services such as Shop Act License,PAN Card,Aadhar Card applications,with the convenience of online submission for various government schemas..

Web application for MusicMix Player | HTML5 | CSS3 | Javascripts

- Developed a responsive music player application using HTML,CSS,JavaScript designed to provide an intuitive and engaging user experience.
- The application features essential functionalities such as play or pause track with a single click.Seemless navigation allows user to skip to the next or previous song.

To-Do Application | HTML5 | CSS3 | JavaScript | Bootstrap Framework

- Developed a dynamic and user-friendly Todo application that allows users to efficiently manage their tasks.
- The application includes features for adding,editing,deleting and marking tasks as complete.

BMI (Body Mass Index) Calculator Web Application | HTML5 | CSS3 | JavaScript

- Developed a Body Mass Index(BMI) Calculator web application to help users quickly determine their BMI based on their height and weight.
- The application features a responsive user interface,ensuring compatibility across various devices and screen sizes.

Temperature Convertor Web Application | HTML5 | CSS3 | JavaScript | Bootstrap Framework

- Developed a Temperature Convertor web application that allows users to convert temperature between Celsius,Fahrenheit and Kelvin.
- The application features an intuitive user interface and ensures accurate conversions.
- This project improved my understanding of JavaScript functions and DOM manipulation.

Calculator Web Application | HTML5 | CSS3 | JavaScript

- Developed a Simple Calculator web application to perform basic arithmetic operations such as addition,subtraction,multiplication,and division.
- The application features an intuitive and responsive user interface,providing a seamless experience across various devices.
